About company

PM ARABIA, is transformed, scalable version is transformed, scalable version of a turnkey contracting business known for delivering time bound turnarounds and projects with innovative approaches to inspection access, and resource management. PM ARABIA has a blend of modern technology and an expertise project management team acting in sync to deliver challenging projects in the energy sector as a service provider to its valuable clients.

Our Objective

PM ARABIA's main objective is to become the PREFERRED PARTNER for industrial services and Projects. Our TEAM is trained, verified, certified, and oriented for deployment across the continents in a short span. Our project crew size can vary from the smallest crew to a total project delivering force be it Turnaround / Shutdown Construction Projects, or Operation and Maintenance in nature for Process Plants and onshore.

We offer a multi-skilled, competent, and motivated team, supported by high-quality systems, procedures, and equipment to meet your ever-evolving requirements.

We work towards perfection in our services and the acceptance level is excellence.

We work towards our goal with an integrated approach to the Health, Safety, Quality, and Environmental aspects of our business by continued investment in the development of our people and supporting resources required.

We pride ourselves on delivering safer, faster, and more efficient results.

With each operational success, the experience and knowledge gained are channeled into the next generation of solutions.

We attend to every aspect of process plants and have proven expertise in Heat Exchangers, Vessels, Columns, Heater, boilers, reformers, Reactors, compressors, Pumps, Valves, etc., and can be a one-stop solution from small contract to major turnaround project. Hot Work Habitat services offered by us could offset the worries associated with fire hazards in an operating plant while executing brownfield projects.
